

WHO CAN HELP?

Longleaf Pine Assistance in the Cape Fear Arch

A wide range of technical assistance is available to landowners to help establish and manage longleaf pine forests. The first step is to have a resource professional visit your property and write a plan based on your objectives.

North Carolina Forest Service

The **County Ranger** is the key contact for services the NC Forest Service offers. NC Forest Service Foresters and Rangers can prepare a woodland plan tailored to your management goals.

Information about fees, if applicable, for the preparation of woodland plans are available at www.ncforestservice.gov. There are no fees associated with verbal forest management assistance for insect infestations, disease, and water quality concerns.

Consulting Foresters

Consulting foresters provide services on a fee or contractual basis. While the NC Forest Service and other public agencies can provide some free advice and assistance for managing your forestland, there are limitations. If you wish to know the value of your timber or how much timber volume you have, a public agency staff person cannot provide this service. Forest owners are encouraged to obtain the services of a Consulting Forester.

A **list of Consulting Foresters** who conduct business in North Carolina is maintained on by the N.C. Forest Service at: www.ncforestservice.gov/managing_your_forest/consulting_foresters.htm
